DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with David Emery on 2/14/07. The purpose of the amendment is to correct limitations of claim 8, directed to non-statutory subject matter under 35 U.S.C. 101; and to correctly renumber the last claim to 11.

2. The application has been amended as follows:

In claim 8, please replace lines 1 and 2, stating "a computer program embodied in a computer-readable medium and representing a sequence of instructions which when" with "a computer-readable storage medium storing a computer program representing a sequence of instructions which when"

3. Please number the last claim from "9" to "11".

4. In the specification, page 33, please replace lines 3-5, from "an information recording medium" to "an internet" with: "a computer-readable storage medium such as

a flexible disc or a hard disc, or acquired through a transmission medium such as a network such as the Internet.”

Allowable Subject Matter

5. The following is a statement of reasons for the indication of allowable subject matter.

Claim 1, 7 and 8 recites, inter alia, “second information processing means does not conform to the standard that the bus is based on” and “setting one of said first information processing means in place of one of the plurality of the input sources, the input sources being for said second information processing means, as an alternative in the selecting device, based on the acquired first information”. Prior art of record do not teach or suggest, either alone or in combination, the aforementioned limitation, nor would it be obvious to modify those references to include such limitation.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
